	25X
Deputy Director for Science and Technology	
<ul> <li>See tab for description of ORD seminars being held on new technologies and their application to intelligence problems.</li> </ul>	
- On 21 July Senator Brady (R., N.J.), accompanied by DD/NRO Jimmie Hill, was briefed	25X
	25X

Deputy Director for Intelligence  ACIS provided data on U.S. and Soviet intermediate range nuclear forces to Ambassador Nitze, Chief U.S. INF Negotiator, at his request; with the NIO/SP, ACIS represented the DCI at a meeting of the START IG, which is considering U.S. monitoring capabilities.  OSWR briefed Dr. Phillip Schambra of NIH on foreign biotechnology gains from the U.S. This session has helped lay the ground work for establishing stronger ties between the Agency and the Institute.  OSWR briefed Dr. George Keyworth, the President's Science Advisor, on U.S. capabilities to estimate the yield of Soviet nuclear tests.  National Intelligence Council  NIO/LA produced a memorandum to Under Secretary of Defense Ikle on Cuba's counter to the proposed U.S. "Radio Marti."  NIO/GPF briefed Army Vice Chief of Staff Gen. Wickham on the GPF work program. Gen. Wickham showed particular interest in military estimates on the Far East.  Personnel
